Once the policy is in Paid-up status and provided the policy is not surrendered or revived, the benefits payable are (applicable for any of the three plan option):

On payment of above benefits, your policy will terminate

WHAT HAPPENS IF THE POLICY IS SURRENDERED?

This is a traditional non-par life insurance plan intended for long term savings and protection to meet your financial goals. We strongly advise that the policy should be continued throughout the defined Policy Term to realize the full policy benefits. Early surrender should not be opted for unless there is no other alternative available, as it will impact the policy value and intended goals may not be realized.

On surrender of the policy, the Surrender Value payable will be higher of {Guaranteed Surrender Value (GSV) or Special Surrender Value (SSV)}. However, the policy acquires a GSV or SSV only after payment of at least first 2 consecutive policy years' premiums. SSV will be determined by the Company and may vary from time to time, with prior approval of the Authority.

The GSV is determined based on a defined % of Total Premiums Paid (excluding any underwriting extra premium, if any) and a defined % of cumulative Guaranteed Yearly Addition(s) added. For the details on GSV factors (percentages) applicable, please refer to the sample policy contract of this plan available on the Company's website.

WHAT ARE THE OTHER BENEFITS IN THIS PLAN?

Loan Facility³

To meet any contingent need, you may avail the loan facility in this plan, once the policy acquires a Surrender Value.

The minimum loan amount that can be availed is Rs. 20,000 and the maximum is 80% of prevailing Surrender Value at the time of availing the loan. Loan will be available for an in-force policy only.

The Company undertakes the review of the interest rate for Policy loans on 31st December every year with any changes resulting from the review being effective from the 1st of April of the following year.

The applicable loan interest rate for the financial year 2018-19 is 8.60% per annum.

High Premium Booster

The basic Sum Assured available for a given premium will be increased by the High Premium Booster % applicable as per the table below, in case the Annualized Premium is more than ₹30,000 (the upper limit of the first premium band in the table below). The High Premium Booster % will be as per the table below:

Annualised Premium (in ₹)	High Premium Booster (as % of Basic Sum Assured)
20,000 to less than 30,000	Nil
30,000 to less than 40,000	4 %
40,000 to less than 50,000	7 %
50,000 to less than 75,000	8 %

Tax Benefit⁴

You may be entitled for tax benefits under Section 80C and Section 10(10D), as per the Income Tax Act, 1961 as amended from time to time.

WHAT HAPPENS IF YOU STOP PAYING THE PREMIUMS?

Savings for your financial goals such as buying a house, your child's education, or planning for your retirement are some of your non-negotiable objectives. The plan is intended to meet your long term savings and protection needs towards your financial goals. Therefore, we strongly advise that the policy should be continued throughout the policy term to realize the full benefits. Discontinuing your premiums is not advisable unless no other alternative is available, as it will impact the policy value and intended goals may not be realized. The plan offers policy loan that can be availed (as per terms and conditions) to manage any liquidity needs.

If you fail to pay due premium within the grace period¹¹ in the first 2 consecutive policy years then your policy will lapse at the expiry of the grace period¹¹ and the insurance cover will cease immediately. No benefit shall be payable upon death or upon your request for termination of the policy or on the expiry of the revival period.

CAN THE POLICY BE REVIVED?

You can make a request for revival of your policy anytime during the revival period of 5 years from the due date of first unpaid premium. The revival of the policy will be as per the Board Approved Underwriting Policy of the Company. Post revival of the policy, the product benefits, including Guaranteed Yearly Additions, would be reinstated to the full level as if the Policy never entered the Paid-up status or Lapse state as applicable. To revive the policy, all past due premiums need to be paid by You along with applicable interest rate as defined by the Company from time to time (from respective premium due dates till the revival date).

The basis for determining the interest rate is the average of the daily rates of 10-Year G-Sec rate over the last five calendar years ending 31st December every year rounded to the nearest 50 bps plus a margin of 200 bps. Any change in the basis of this interest rate will be subject to the prior approval of the Authority. The Company undertakes the review of the interest rates for revivals on 31st December every year with any changes resulting from the review being effective from the 1st of April of the following year. The applicable interest rate for the financial year 2019-20 is 10 % per annum. If a Policy in Lapse state is not revived within the Revival Period, it shall terminate upon expiry of the revival Period.
