Fund Management Strategies

• Systematic Transfer Option (STO)

If you want to invest in an equity oriented fund but worry about market volatility and risk associated with lump sum investment, then you can opt for STO which enables you to enter the equity market in a systematic manner. Through STO, your entire annual / single allocable Premium (after deduction of applicable charges) will be first allocated to the Liquid Fund ('Source STO Fund') and then systematically transferred on a monthly basis into any one of the Unit Linked Funds ('Target STO Fund') as chosen by you as per the below Table. While STO is operational, you are not allowed to change your 'Target STO' Fund. Source STO Fund and Target STO Fund would together be referred to as STO Funds.

Source STO Fund	Target STO Fund
Liquid Fund	<p>Choose one Unit Linked Fund out of above four Unit Linked Funds:</p> <ul style="list-style-type: none"> • Equity II Fund • India Multi-Cap Equity Fund • Emerging Leaders Equity Fund • Large Cap Advantage Fund

Under this option, during the Premium Payment Term, the Fund Value available in the 'Source STO Fund' at the beginning of each month shall be switched to 'Target STO Fund' by cancelling units in the 'Source STO Fund' and purchasing units in the 'Target STO Fund' till the availability of units in the Liquid Fund, in the following manner:

Policy Month Transfer of units from 'Source STO Fund'

Policy Month 1: 1/12 of the units available at the beginning of Policy month 1

Policy Month 2: 1/11 of the units available at the beginning of Policy month 2

.....

Policy Month 6: 1/7 of the units available at the beginning of Policy month 6

.....

Policy Month 11: 1/2 of the units available at the beginning of Policy month 11

Policy Month 12: Balance units available at the beginning of Policy month 12

In case of Single Premium policy, the STO will be operational only during the first Policy Year.

STO shall be subject to the following conditions:.

1. This option can be availed at Policy Commencement Date or at any Policy Anniversary with prior request, submitted at least 30 days before the Policy Anniversary. Once STO request is accepted, the STO shall be effective from the Policy Anniversary immediately following the receipt of such request.
2. STO can be opted / re-opted only when Premiums are paid in annual mode and will be operational during the Premium Payment Term only, provided due premium has been paid. STO cannot be opted once all Premiums payable under the Policy have been paid.
3. Any amount remaining in other than STO Funds will continue to remain invested in those Funds. Switching can be done among the Unit Linked Funds which are not STO Funds
4. STO can be opted out at any time during the Premium Payment Term, which shall be effective from the following Monthly Policy Anniversary.
5. STO cannot be exercised simultaneously with either RPO or AFR or LPS except for SSO (other than last 4 Policy Years) and SWO (other than post completion of 10 years of PPT) and MWO (other than post completion of 10 years of PT). If You have opted for SSO then during the last 4 Policy Years, STO will cease and SSO will become operational. Similarly, if the Policyholder has opted for SWO / MWO, STO will cease when SWO / MWO becomes operational.
6. The following requests will lead to cessation of the STO from the next Monthly Policy Anniversary:
 - a. Request for change in Premium payment mode or request for Premium redirection; or
 - b. Request to activate AFR, LPS, RPO, SWO (post completion of 10 years of PPT), MWO (post completion of 10 years of PT) or SSO (during the last 4 Policy Years only); or
 - c. Request for partial withdrawal from Source STO Fund; or
 - d. Request for switch into or from any of the STO Funds while STO is operational;
7. Once the STO ceases, all future premiums will automatically be invested in Target STO Fund unless specified otherwise.
8. Request for STO cannot be made after the death of the Life Assured under Premium Plus.

• **Return Protector Option (RPO)**

This option enables you to take advantage of the equity market by protecting your gains from the future equity market volatility. Through RPO, your entire Premium net of applicable charges is invested into any one of either Large Cap Advantage Fund or India Multi-Cap Equity Fund or Equity II Fund or Emerging Leaders Equity Fund, as opted by You ('RPO Fund) and gains made from RPO Fund are automatically transferred to a lower risk Debt Fund so as to create a more stable sequencing of investment returns during the Policy Term.

RPO shall be subject to the following conditions:

- i. While RPO is operational, the entire Premiums net of applicable charges ("Net Invested Amount") are invested into any one of either Large Cap Advantage Fund or India Multi-Cap Equity Fund or Equity II Fund or Emerging Leaders Equity Fund ("RPO Fund"), as opted by You. Once opted, the RPO Fund cannot be changed.
- ii. This option gives the flexibility to choose any fixed flat target appreciation percentage in multiple of 1 within a range of 5% to 15% ("Target Appreciation"). Once chosen, it cannot be changed while the RPO is operational.
- iii. This option can be chosen only at the Policy Commencement Date and will become effective from the first Policy Anniversary. While RPO is operational, the Fund Value in the RPO Fund will be tracked on every business day against the Net Invested Amount in RPO Fund as on date. In the event, where the gain from the RPO Fund becomes equal to or more than the Target Appreciation, then such gain will be transferred to the Debt Fund at the prevailing Unit Price. In case the gain from the RPO Fund is less than the Target Appreciation, the Fund Value will continue to remain in the RPO Fund.
- iv. RPO will continue to be active in Reduced Paid-up status.
- v. RPO cannot be exercised simultaneously with either STO, LPS or AFR except SSO (other than last 4 policy years) SWO (other than post completion of 10 years of PPT) and MWO (other than post completion of 10 years of PT). If SSO is opted, then only during the last 4 policy years, RPO will stop and SSO will become operational. Similarly, if the Policyholder has opted for SWO / MWO, RPO will cease when SWO / MWO becomes operational.
- vi. The request for Premium redirection, switching and partial withdrawals will result in cessation of RPO.
- vii. Once RPO is opted out or RPO ceases to exist subject to conditions stated above, then it cannot be re-opted again during the Policy Term.
- viii. Once the RPO ceases, all the future Premiums will continue to be invested into RPO Fund unless a request for Premium redirection is made.
- ix. During the first Policy Year, there will not be any automatic transfer of investment gains into Debt Fund even if investment gains from RPO Fund are equal to or more than the Target Appreciation.

- **Auto Funds Rebalancing (AFR)**

If you wish to maintain allocation of your savings in a specific proportion across different Unit Linked Funds, irrespective of market movements, you can do so through Auto Funds Rebalancing. Once opted, after every 3 months, it automatically rebalances the allocation of your savings in various Unit Linked Funds to the allocation proportions chosen by you.

For example, if you wish to stay invested in the ratio of 50: 25 : 25 in Equity II Fund, Balanced Plus Fund and Debt Fund; then at the end of every 3 months starting from the date of commencement of Auto Funds Rebalancing, your total Fund Value shall be rebalanced as per the chosen ratio of 50 : 25 : 25 in Equity II Fund, Balanced Plus Fund and Debt Fund.

- i. You can avail this option at inception or at any time later during the Policy Term.
- ii. AFR will cease to exist in case a switch or premium redirection is exercised.
- iii. AFR, RPO, LPS and STO cannot co-exist. AFR will also cease to exist when SSO becomes operational. Any request to opt for STO or RPO or LPS or SSO (during the last 4 Policy Years) will be considered as a request to opt out of AFR and post such request, AFR will cease to exist.
- iv. AFR will continue to be active in Reduced Paid-up status.
- v. If partial withdrawal or withdrawal under MWO or withdrawals under SWO is made while AFR is operational, AFR will be exercised on the balance of the Fund Value.
- vi. The request for AFR cannot be made after death of the Life Assured has happened in case Premium Plus was chosen

- **Safety Switch Option (SSO)**

As the Policy nears maturity, you may want to avoid market volatility and safeguard your funds. For this, you

can opt for Safety Switch Option (SSO) (at inception or later on in the Policy Term but at least four years before the maturity date) and your funds will get shifted systematically to the relatively low risk Liquid Fund at the beginning of each of the last 4 years of the Policy as per the following schedule:

At start of Policy Year	Fund allocation in funds "Other than Liquid Fund"**	Liquid Fund Allocation
T-3	70%	30%
T-2	40%	60%
T-1	10%	90%
T	0%	100%

*Amounts in "Other than Liquid Fund" mean total Fund Value with respect to the Policy in Large Cap Advantage Fund, Emerging Leaders Equity Fund, India Multi-Cap Equity Fund, Equity-II Fund, Growth Plus Fund, Balanced Plus Fund and Debt Fund.

Where "T" is Policy Term.

When the Safety Switch Option becomes operational, the Company shall allocate your existing funds to Liquid Fund only if the existing allocation in the Liquid Fund is less than the respective percentage of allocation as specified above. For rebalancing, the total fund value (including amounts in Liquid Fund and other investment funds) will be considered. The amounts, if any in the "Other than Liquid Fund" category will remain in the same proportion both before and after the SSO related rebalancing.

SSO shall be subject to the following conditions:

- i. The Safety Switch Option will be available only under Invest Plus and Premium Plus. The request for Safety Switch Option cannot be made after death of the Life Assured has happened in case Premium Plus has been chosen.
- ii. There will be no charges when units are auto re-balanced from "Other than Liquid Funds" to "Liquid Fund" as a result of SSO being operational.
- iii. Where SSO is operational, switching in or out of the Liquid Fund will cause the SSO to cease.
- iv. If partial withdrawal or withdrawal under MWO or withdrawal under SWO is made while SSO is operational, SSO will be exercised on the balance of the Fund Value.
- v. Where SSO is operational, a request for redirection of Premium will make the SSO ineffective.
- vi. SSO can be opted if any of STO / RPO / AFR / LPS are operational, however during the last 4 policy years when SSO gets operational, STO / RPO / AFR / LPS will cease to exist. Any request to activate STO / RPO / AFR / LPS in the last 4 policy years will make the SSO ineffective.
- vii. SSO will continue to be active in Reduced Paid-up status.

• **Loss Protector Strategy (LPS)**

This investment strategy is well suited for risk averse customers who would want to minimize the losses in case of downturn in market by transferring the units from high risk to low risk funds. This will enable the Policyholder to protect their money from market volatility. It will help them reduce the damage to the fund in case the market dips.

LPS shall be subject to the following conditions:

- i. You can opt to choose this option either at inception or at any time later in the Premium Payment Term. It will become effective from the next Policy Anniversary.
- ii. While LPS is operational, entire Premiums net of applicable charges ("Net Invested Amount") are invested into any one of either India Multi-Cap Equity Fund or Equity II Fund or Large Cap Advantage Fund or Emerging Leaders Equity Fund, as opted by the Policyholder ("LPS Fund"). Once opted, the LPS Fund cannot be changed.

- iii. While LPS is operational, the Fund Value in the LPS Fund will be tracked on every Business Day against the Net Invested Amount in LPS Fund as on date. In the event, where the loss from the LPS Fund becomes equal to or more than the chosen Depreciation Percentage, then units from LPS Fund will be transferred to the Debt Fund at the prevailing Unit Price. In case the loss in the LPS Fund is less than the chosen Depreciation Percentage, the Fund Value will continue to remain in the LPS Fund.
- iv. This option gives the flexibility to choose any fixed flat Depreciation Percentage in multiple of 1 within a range of 10% to 30% (“Depreciation Percentage”). Once chosen, it cannot be changed while the LPS is operational.
- v. You can also opt out of this option at anytime in the Policy Term. The future triggers will cease to exist from the date of request.
- vi. There is no restriction on number of times to opt for or opt out from Loss Protect Strategy.
- vii. LPS will continue to be active in Reduced Paid- up status.
- viii. LPS cannot be exercised simultaneously with either STO, RPO or AFR except SSO (other than last 4 policy years) and SWO (other than post completion of 10 years of PPT) and MWO (other than post completion of 10 years of PT). If SSO is opted, then only during the last 4 policy years, LPS will stop and SSO will become operational. Similarly, if the Policyholder has opted for MWO/ SWO, LPS will cease when MWO/ SWO becomes operational.
- ix. The request for Premium redirection, switching and partial withdrawals will result in cessation of LPS.
- x. Once the LPS ceases, all the future Premiums will continue to be invested into LPS Fund unless a request for Premium redirection is made.

Enhanced Flexibilities

1. Milestone Withdrawal Option (MWO)

MWO is a systematic partial withdrawal facility. In this option, at the end of the 10th Policy Year and every 5th year thereafter (excluding the milestone coinciding with the Policy maturity date), 20% of the available fund value on the date of payment will be given to the Policyholder subject to Life Assured attaining 18 years of age as on the date of the payout.

The availability / operation of this option will be subject to the following conditions:

- i. The MWO payout will be paid by redeeming units from the funds in the same proportion as the Fund Value in each fund and will be redeemed at the unit price applicable on the date of each MWO payout.
- ii. Only one of ‘Milestone Withdrawal Option’ or ‘Systematic Withdrawal Option’ can be exercised in a Policy. Either of the two options can be chosen and changed up to anytime before the payout starts. Once the payout from either of the options has started, the Policyholder cannot switch his withdrawal option or opt for other withdrawal option at the same time. Policyholder can opt out of this option at anytime even after the withdrawals have started but will not be allowed to opt for other withdrawal option available in the Plan.
- iii. Resultant Fund Value after any withdrawal should be at least 120% of the Annualized Premium payable in a year at inception of the Policy in case of Regular / Limited Premium policies and at least 25% of the Single Premium in case of Single Premium policies. If any of these conditions are triggered at any of the times at which a withdrawal is due under this feature no MWO payout will be made and future withdrawals under MWO will be stopped. If the customer wants to re-activate this option, he / she will have to give a fresh request for the same.

- vi. MWO feature can be exercised even if SSO or AFR is operational. Post MWO payout(s), the SSO or AFR

- vii. Where STO / RPO / LPS is operational, the same shall cease once MWO becomes operational.

- ix. MWO cannot be exercised during the Settlement Period.

The withdrawals will be payable in arrears in yearly, half yearly, quarterly or monthly mode as chosen by the Policyholder where the annual percentage chosen for SWO will be split equally across a Policy Year depending upon the frequency. As an example, if a Policyholder chooses an SWO percentage of 12% for a Policy Year at monthly frequency, then every month, 1% of the Fund Value will be withdrawn and paid to the Policyholder once the SWO has become operational.
- vi. Resultant Fund Value after any withdrawal should be at least 120% of the Annualized Premium payable in a year at inception of the Policy. Further, the minimum SWO payout should be at least Rs. 1,000. If the customer wants to re-activate this option, they will have to give a fresh request for the same.
- vii. SWO feature can be re-activated or stopped anytime during the Policy Term provided that for re-activation, the outstanding Policy Term is at least 5 years. Policyholder can opt out of this option at anytime even after the withdrawals have started but will not be allowed to opt for other withdrawal option available in the Plan.
- ix. SWO percentage can be changed anytime during the Policy Term, even after SWO has become operational. The change in percentage will be effective from the next Policy Anniversary following the receipt of the request for the same. - iv. Partial withdrawals are not allowed during the Settlement Period or when the RPO / LPS is operational as well as not allowed post the death of Life Assured in case Premium Plus is chosen.
