#### Case Study:

Mr. Rahul is a 40 years old working professional who wants to plan his retirement, and hence build-up a retirement corpus which enables him to get a guaranteed stream of income, post his retirement at age 60. He estimates that after meeting all his current and future expenses, he would be able to invest an amount of ₹10,000 per month for the period of 20 years. He also values the flexibility to invest more (through top-ups) whenever he has some extra money for his retirement corpus. Furthermore, he wants to invest some part of his premiums into equities for higher growth, but at the same time he requires capital protection to safeguard his investments from the market volatility.

He decides to buy Canara HSBC Life Insurance Secure Bhavishya Plan, to fulfill his needs of retirement income, and growing his retirement corpus along with minimum guaranteed\* Vesting benefit of 101% of premiums paid (including top-ups). The expected Vesting benefit (fund value) on retirement (at age 60) and annuity amount post retirement will be as follows:

(All figures are in ₹)

Age	Total premium paid over 20 years	Guaranteed Vesting Benefit	Assumed Total Vesting Benefit	
			@ 4%	@ 8%
60	2,400,000	2,424,000	3,033,692	4,638,675
	Annuity payable (per annum) based on Total Vesting Benefit and the current annuity rates (for 'Lifetime Annuity with Return of 100% of Purchase price' option under Smart Immediate Income Plan UIN: 136N034V01)		213,373	326,260

**Notes:**

- The assumed Total Vesting Benefits (at 4% p.a. and 8% p.a. investment return scenario) shown in the above illustrative example are not guaranteed, and they are not the upper or lower limits of what you might get back, as the value of your policy depends on a number of factors including performance of investment funds. The Total Vesting Benefits (Fund Value) shown in the above illustrative example are after deduction of all charges including applicable taxes and cess (es), if any.
- The annuity amounts above would be payable annually in arrears from the Vesting date, as long as the Life Assured is still alive. No other benefit would be payable. The above assumes that 100% of the Total Vesting Benefit is used to buy an annuity. The annuity amounts shown have been calculated using prevailing rates for Smart Immediate Income Plan (UIN: 136N034V01), which may change from time to time. The annuity amounts are shown above only to give an indication of the amount of annuity you may be able to purchase. Please refer to the Company's website for prevailing annuity rates. In practice this amount will depend on the annuity rate available at that time, which will in turn depend on the company's assessment of factors such as long term interest rates and mortality rates. To that extent there is a risk that targeted annuity rate will not be the same as illustrated above. The amount of annuity available to you will also depend on the type of annuity you select and the proportion of your Total Vesting Benefit used to buy the annuity.
- On Vesting, you may be required by applicable prevailing laws to use all or part of your Total Vesting Benefit to purchase an annuity.
- The annuity at the time of Vesting will only be provided by Canara HSBC Oriental Bank of Commerce Life Insurance Company Limited (referred as 'Company' hereafter).

## OTHER FEATURES AND FLEXIBILITIES OF SECURE BHAVISHYA PLAN

### Top-up premiums:

- Top-up Premiums can be paid throughout the policy term, except in the first and the last policy year
- The amount of each top-up premium should be a minimum of ₹10,000
- Top-up Premium will be accepted only if all the due premiums have been received by us

### Investment Funds and Investment strategy:

There are three investment funds in the plan. The investment and risk profile of each fund is described below:

Fund Name	Fund Philosophy	Asset Allocation		Risk Profile
<b>Pension Growth Fund</b>	To achieve capital appreciation through a judicious mix of investments in equities and fixed income securities.	Equity <sup>#</sup>	10%-60%	<b>Medium to High</b>
		Debt Securities	20%-100%	
		Money Market Instrument & Others*	0%-80%	
<b>Pension Balanced Fund</b>	To achieve a balance between capital protection and returns through a judicious mix of investments in equities and fixed income securities.	Equity <sup>#</sup>	0%-30%	<b>Medium</b>
		Debt Securities	20%-100%	
		Money Market Instrument & Others*	0%-80%	
<b>Pension Debt Fund</b>	To provide capital protection and accumulation of income through investment in fixed income securities.	Equity <sup>#</sup>	0%	<b>Low</b>
		Debt Securities	20%-100%	
		Money Market Instrument & Others*	0%-80%	

\* Others will include investments in Liquid Mutual Funds, FDs and other short term investments

<sup>#</sup>All such equity related securities as may be permitted from IRDAI from time to time

As per the investment strategy of the funds, Policyholder's monies (including Top-Up premium) shall be invested in Pension Growth Fund only upto Policy Term (PT) minus 6 years. PT minus 5 is a transition year during which Funds will be transferred from Pension Growth Fund to Pension Balanced Fund in a systematic manner. There will be a gradual shift in 5 quarterly tranches during the PT minus 5 year such that at the beginning of PT minus 4 year, 100% of the fund would have been moved to Pension Balanced Fund.

During (PT-5) <sup>th</sup> policy year, at beginning of quarter	Proportion of Fund transferred from Pension Growth Fund to Pension Balanced Fund
1	1/5 of Fund Value in Pension Growth Fund
2	1/4 of remaining Fund Value in Pension Growth Fund
3	1/3 of remaining Fund Value in Pension Growth Fund
4	1/2 of remaining Fund Value in Pension Growth Fund

At the beginning of (PT minus 4)<sup>th</sup> policy year, the entire balance remaining in Pension Growth Fund will be transferred to Pension Balanced Fund.

Due to this strategy, funds flow from riskier assets to less risky assets, thereby protecting the investments from any volatile market / short term fluctuations in the equity market, the closer you get to the time of Vesting.

You have the option to switch any proportion of funds from Pension Balanced Fund to Pension Debt Fund only in the last 5 policy years. However, switching from Pension Debt Fund to any other Fund is not allowed. Renewal Premiums and Top-ups in last 5 years shall be invested in Pension Balanced Fund. However in the last five years, you can choose premium re-direction option through which you can select Pension Debt fund for renewal premiums / top-ups investment.

Example:

Policy Term	Pension Growth Fund	Pension Balanced Fund	Pension Debt Fund
20 years	<ol style="list-style-type: none"> <li>1) 100% of the premiums (including top-ups) are invested in this fund for the first 15 policy years.</li> <li>2) Gradual shifting in 5 quarterly tranches will happen during 15th policy year.</li> <li>3) Any premium / top-ups in 15th policy year shall also be invested in Pension Growth Fund</li> </ol>	<ol style="list-style-type: none"> <li>1) All available Units under the Pension Growth Fund are switched out and moved to Pension Balanced by the beginning of 16th policy year</li> <li>2) 100% of the renewal premiums (including top-up's) are invested in this fund after first 15 policy years are over, which means for the last five years</li> <li>3) Option for switching and premium re-direction to Pension Debt Fund in last five policy years</li> </ol>	<ol style="list-style-type: none"> <li>1) Any proportion of Funds can be switched from Pension Balanced Fund to Pension Debt Fund in last five policy years</li> <li>2) Switching is not allowed from Pension Debt Fund to any other Fund</li> <li>3) Renewal premium/ Top-ups can be re-directed to Pension Debt Fund in last five policy years</li> </ol>

**Switching:**

During last five policy years, you can opt to switch your investments from Pension Balanced Fund to Pension Debt Fund. You can either switch a percentage of your investments or an absolute amount. The minimum amount that you can switch is ₹10,000. Please note that switching of funds is not allowed from Pension Growth Fund and Pension Debt Fund.

**Premium Redirection:**

During last five policy years, you can also opt to change the allocation of your renewal premiums / top-ups to Pension Debt Fund as per your needs. However, redirection of Premiums shall be allowed only once a policy year, which shall be free of cost. In case this option is not availed, it cannot be carried forward to the next policy year. Redirection will be effected on the date of receipt of a written request from you by the Company. The revised allocation will apply to your subsequent premiums.

**Partial Withdrawal:**

Partial withdrawals are not allowed in this plan.

A) If the policy is surrendered within the first 5 policy years, the surrender value (Fund Value less applicable surrender charges) will be transferred to the Pension Discontinued Policy Fund and will earn at least a minimum guaranteed interest rate of 4% or as decided by IRDAI from time to time. The extant Income Tax Rules shall be complied with at the time of closure of the policy at the end of the lock-in-period. Where the request for surrender is given before the lock in period, the proceeds of the Pension Discontinued Policy Fund at the end of the Lock-in-Period can be utilized by You by exercising one of the following options:

1. Commute up to the extent allowed under Income tax act and utilize the balance amount to purchase immediate annuity only from Us, which shall be guaranteed for life, at the then prevailing annuity/pension rates.
2. Utilize the entire proceeds to purchase the single premium Pension plan only from Us

The investment and risk profile of Pension Discontinued Policy Fund will be as follows:

Fund Name	Fund Philosophy	Asset Allocation		Risk Profile
Pension Discontinued Policy Fund <sup>^</sup>	To generate reasonable returns on funds from discontinued policies determined in accordance with the Regulations	Equity*	-	Low
		Govt. Securities*	60%-100%	
		Money Market*	0%-40%*	

<sup>^</sup> Only available in case of discontinuance/ surrender of a policy during the first five policy years.

\* These are subject to revision as guided by IRDAI from time to time.

B) If the policy is surrendered after completion of 5th policy year, the surrender value (equals to the Fund Value) can be utilized by you by exercising one of the following options:

1. Commute up to the extent allowed under applicable prevailing laws and utilize the balance amount to purchase immediate annuity only from Us, which shall be guaranteed for life, at the then prevailing annuity/pension rates.
2. Utilize the entire proceeds to purchase the single premium Pension plan only from Us

In case the policyholder dies prior to the Life Assured then the responsibility for premium payment will lie with the Life Assured. Further, if premiums are not paid due to death of the policyholder, then the policy may be discontinued on the expiry of the notice period as described in the discontinuance section (6).
3. Grace period: You have a period of 30 days for annual mode of premium payment and 15 days for monthly mode of premium payment from the due date to pay your premiums, during which your life insurance cover will continue.
4. You may change your Premium Payment Mode anytime during the policy term by submitting a written request provided your annualized premium is equal to or more than minimum annualized premium applicable for proposed mode of premium payment.
5. Collection of advance premium shall be allowed within the same financial year for the premium due in that financial year. However, where the premium due in a financial year is being collected in previous financial year, the premium may be collected for a maximum period of three months in advance of the due date of the premium. The premium so collected in advance shall only be adjusted on the due date of the premium. Such advance premium, if any, paid by the policyholder shall not carry any interest.

**Proceeds of the discontinued policy:** This means the Pension Discontinued Policy Fund Value on the date the policy has discontinued, after addition of interest computed at the minimum guaranteed interest rate. The excess income earned in the Pension Discontinued Policy Fund over and above the minimum guaranteed interest rate shall also be apportioned to the Pension Discontinued Policy Fund Value in arriving at the proceeds of the discontinued policies and shall not be made available to the shareholders.

If the due installment of premium has not been paid by the premium due date, a grace period of 30 days for annual mode of premium payment and 15 days for monthly mode of premium payment would be given to you. In case the premium due is not received within the grace period, the Company shall send a notice within a period of 15 days from the date of expiry of grace period to you to exercise the following options within a period of 30 days of receipt of the notice, hereby referred to as the notice period:

In this case you shall exercise one of the following options:

- i. Revive the policy immediately
- ii. Revival of policy within a period of two years from the date of discontinuance of the policy

Till you exercise your option or up to the expiry of notice period, whichever is earlier the policy is deemed to be in force with risk cover.
