**12. Auto Funds Rebalancing (AFR):** This feature can be opted only by the Policyholder and is available at commencement of policy or anytime later during the policy term. AFR will cease to exist in case a switch/redirection is exercised. Any exercise of opting in or opting out after policy issuance will be considered a switch, and prescribed charges will be applicable. In case you want to continue with AFR, you will be required to submit a fresh request to opt in the feature again. If you opt for partial withdrawal then AFR will apply on the balance funds after withdrawal. Further, AFR and safety switch options will not be exercisable simultaneously. Hence, AFR will cease to exist once safety switch option is operational- in the last 4 policy years.

**13. Safety Switch Option (SSO):** This feature can be opted only by the Policyholder and is available at commencement of policy or anytime later in the policy except in the last four policy years. Once chosen, this option will hold good even after the death of the Life Assured. Any opting in or opting out after policy issuance will be considered a switch, and prescribed charges will be applicable. However, there will be no switching charges when units are auto re-balanced from "Other Funds" to "Liquid Fund". If you opt for partial withdrawal then this option will be exercised on the balance funds after withdrawal. While SSO is operational, switching can be exercised amongst the funds other than the liquid fund without impacting SSO. During this time switching in or out of the liquid fund will stop SSO.

The total Fund Value (including funds in liquid and other funds) will be rebalanced four times at yearly intervals, such that the proportion of funds is as mentioned in the table given earlier under Safety Switch Option section. Therefore, the funds in the "other than liquid fund" category will remain in the same proportion both before and after the SSO related rebalancing.

14. **Settlement Option:** This feature can be opted only by the Policyholder and can be availed any time at least 3 months before the end of the policy term. You can choose Monthly, Quarterly, Half yearly or Yearly frequency for installment payouts. All investment risk related to NAV movements will be borne by you. Units from the applicable funds will be cancelled at the time of installment payouts. There are no charges other than fund management charges, Mortality Charges and Switching Charges during the settlement period. No Partial withdrawal or Auto Funds Rebalancing, will be available during this period. Switching is allowed during the Settlement Period. During the Settlement Period, risk cover shall be maintained at 105% of the all the Premiums paid up to the date of death. However, where death of the Policyholder has occurred during the Policy Term, no risk cover shall be applicable during the Settlement Period. In the event of death of the Policyholder during the Settlement Period, higher of (Fund Value as on the date of intimation of death or 105% of all the Premiums paid up to the date of death) will be payable and the Policy will terminate.
15. Risk commencement date under this plan will be the date of underwriting acceptance, subject to realization of premium. The date of commencement of policy is the same as the risk commencement date under this plan.
16. Sum at Risk in this plan at any time will be calculated as higher of (Sum Assured or 105% of all premiums paid by you) Plus Present Value of future premiums for an in-force policy. However, for Reduced Paid-up policy, SAR will be calculated as higher of Paid-up Sum Assured or 105% of all premium paid by you. In case claim for TPD is accepted, Sum at Risk will be calculated as higher of Sum Assured or 105% of all premiums paid by you. Sum at Risk, during Settlement Period, will be calculated as higher of 105% of all Premiums paid by you less Fund Value or Zero. 16. However, where death has occurred during the Policy Term, SAR will be zero.  
  
(For more details on Sum at Risk calculation for premium funding benefit, please refer Sample Policy Contract of this plan available at Company's website)
17. **Suicide exclusion:** In case of death due to suicide within 12 months from the date of commencement of the policy or date of revival of the policy, the claimant shall be entitled to Fund Value as available on the date of intimation of death. Also any charges, other than Fund Management Charges, recovered subsequent to the date of death shall be added back to the Fund Value as available on the date of intimation of death. The Policy will terminate upon payment of such benefit amount.
18. During the Lock-in period of 5 years, if death happens after the policy is in Discontinuance state, the Proceeds of the Discontinued Policy Fund as on the date of intimation of death shall be payable.
19. Request for any alteration in Sum Assured should be given at least 60 days prior to policy anniversary and will be effective only from the policy anniversary following the date on which you have made your request. Option to increase the Sum Assured is not available for persons above 50 years of age. Increase/decrease in Sum Assured is subject to underwriting acceptance and minimum and maximum Sum Assured limits stipulated under this plan.
20. The partial withdrawal can be made only by the Life Assured. The minimum partial withdrawal amount is ₹10,000 and the maximum is such that the Fund Value after withdrawal does not fall below 120% of the annualized premium. The cap on maximum partial withdrawal has been kept with the view to avoid those partial withdrawals which would result in immediate termination of the policy.
21. **Auto termination:** At any time during the policy term after the completion of first 5 policy years , provided that first 5 years premium have been paid, if Fund Value is insufficient to deduct monthly charges due to cancellation of units, or becomes equal to zero, then this policy shall terminate automatically. The remaining Fund Value (if any) as on the date of such termination shall be payable to you. The policy will not be automatically terminated in case the claim under TPD is registered and is under evaluation. In cases where a death/TPD claim has been admitted by the Company and future premiums are being funded by the Company (as a part of claim payment), such policy will not be foreclosed due to fund value falling to zero or less and the policy shall continue as per the terms and conditions of the policy document.
22. **Net Asset Value (NAV) calculation:** NAV shall be calculated on all Business Days in accordance with the IRDAI's guidelines in force from time to time. As per the present guidelines in force, NAV is computed as follows:  
$$\frac{\{(\text{Market Value of investment held by the fund} + \text{Value of Current Assets}) - \text{Value of Current Liabilities \& provisions, if any}\}}{\text{Number of Units existing on Valuation Date (before creation/redemption of Units)}}$$
23. First premium will be allocated at the NAV of the date of commencement of the policy. In case of premium received by outstation cheques, the NAV of the realization date or due date, whichever is later, will be allocated.
24. Transaction requests (including renewal premiums, switches, partial withdrawals etc) received before the cutoff time of 3.00 P.M. will be allocated the same business day's NAV and the ones received after the cutoff time of 3.00 P.M. will be allocated next business day's NAV. The cutoff time will be as per IRDAI guidelines from time to time.
25. **Tax Benefit:** Tax Benefits under the policy will be as per the prevailing Income Tax laws and are subject to amendments from time to time. For tax related queries, contact your independent tax advisor.
26. There is no provision of loan on the policy.
27. Assignment and Nomination are permitted under this policy as per Section 38 and Section 39 respectively of the Insurance Act, 1938 as amended from time to time.
28. **Free look period:** The policyholder has the right to cancel the policy within 15 days (30 days if this Policy has been acquired through distance marketing) from the date of receipt of the policy document, in case he/she does not agree with the terms and conditions of the policy. If the policyholder cancels the policy during free look period, the Company will refund the Fund Value on the date of cancellation plus the un-allocated premium (if any) plus any charge deducted by cancellation of units, after deducting proportionate risk charges (incl. TPD charges, if applicable) for the period of insurance cover and expenses incurred on medicals and stamp duty.
