PLAN OPTIONS

These are two Plan options which offer fixed term cover. A customer may choose any one of them based on his / her protection needs.

Plan Option 1: **Life Secure**

Under this plan option, the Sum Assured on Death, as applicable basis the Coverage Option opted, will be paid on death of Life Assured/Spouse, as applicable, during the Policy Term, provided the Policy is in-force at the time of death.

Both the Life Assured and the Spouse can be covered for the term of the contract, subject to terms and conditions of the Policy. The policy will terminate on the death of the last surviving member covered under the policy.

Plan Option 2: **Life Secure with Return of Premium**

Under this plan option, the Sum Assured on Death, as applicable basis the Coverage Option opted, will be paid on death of Life Assured during the Policy. The Policy will terminate after payment of this benefit. In case of survival of Life Assured till the end of the Policy Term, where the policy is in-force, Sum Assured on Maturity will be paid to the Policyholder on the date of maturity and Policy will terminate.

Waiver of Premium on diagnosis of Terminal Illness:

In addition to the above-mentioned plan options, the product offers in-built Waiver of Premium on diagnosis of Terminal Illness. For Life Assured/Working Spouse, in case of diagnosis of Terminal Illness, all future premiums under both plans options (as opted) (excluding the premiums for the in-built options– ADB, ATPD, CI and CCB) of the impacted life under the Policy will be waived. During this period, the policy will be in-force and the coverage under the base policy will continue. This service is complementary and offered at no additional cost to the policyholder.

Upon diagnosis of TI, all the other Optional In-Built Covers will cease (after payment of early exit value or surrender value as applicable)

Conditions that apply on TI Cover

- No TI benefit is payable in case Policy/insurance coverage is in lapsed/paid-up status.
- The Company must be notified of the diagnosis within thirty (30) days of the same being made.
- Maximum Coverage age allowed is 85 years last birthday

COVERAGE OPTIONS

The benefits available under each Plan Option will be based on the Coverage Options chosen by you at inception. Similarly,

a Working Spouse can choose any of these Coverage Options at policy inception. These options, once chosen, cannot be altered during the Policy Term.

1. Level Cover: Your Sum Assured remains same throughout the Policy Term. However, if you or your spouse (Working Spouse) have opted for regular premium payment then their respective Sums Assured can be increased thrice during the Policy Term with **Life Stage Enhancement** option on any of the following life events i.e. Marriage, Birth/Legal Adoption of Child or purchase of new house during the Policy Term, subject to underwriting on the occurrence of any of the Life events.

The request for the increase in Sum Assured along with targeted increase should be made within one year of the occurrence of the Life Event with the increase in Sum Assured being applicable from the next Policy Anniversary following acceptance of the request by the Company for the same.

Life Stage Enhancement option is available only if Life Secure Plan Option is opted. (For further details refer Clause 3 under Key Terms and Conditions).

2. Increasing Cover: Your Sum Assured under this option increases by 10% per annum (simple interest) after completion of every Policy Year, provided the Policy is in-force. The increase in Sum Assured during the Policy Term is capped at 100% of the original Sum Assured (original Sum Assured is the Sum Assured of base Policy and does not include coverage amount under the Optional In-built Covers). The last increase in the Sum Assured would happen just after the completion of 10th Policy Year and the Sum Assured thereafter would remain at that level for the remaining term of the contract. However, due to increase in Sum Assured, there will be no change in the premiums payable.

The Sum Assured of the Non-Working Spouse will remain constant throughout the Policy Term.

The table illustrates the Sum Assured of Life Assured over the Policy Term under the above-mentioned Coverage options where the Age at Entry is 45 years, the Sum Assured chosen at the inception is ₹ 50,00,000 and the Policy Term is 30 years.

Note:

If during the duration of 5 years from inception of Policy, future premium waiver benefit is triggered due to ATPD, as opted or upon diagnosis of TI, impacted life (Life Assured/Working Spouse, as applicable), will not be able to exercise the option to increase in Sum Assured. The extra premium charged to block the premium rate is payable for the full premium payment term (as opted at policy inception) in cases where BYP benefit becomes effective.
